To SENSE[1]

"BYVALOV"[11] reported on 8 March that "ENEMIGO"[111] spoke to him about 8 months ago about his wife (she is in VLADIVOSTOK, is ill) he praised her highly. He said [that] when she was a draftsman on the "KRABOLOV II" everybody liked her. She could be an engineer here and would receive good pay -- it would not be easy to arrange in respect of her citizenship, etc. I suggested to "BYVALOV" that he should meet "ENEMIGO" more often and that he should not lose the good relationship.

Once more, please check SHAKHOV Aleksei Ivanovich who is working independently on the staff[KADR] in SAN FRANCISCO. Earlier he worked as Chief of the Political Department in VLADIVOSTOK. He is very much needed for the work.
